P & B Metal Components Ltd Environment Statement

At P & B Metal Components Ltd, we recognize that our business activities can have an impact on the environment and we are committed to minimising and managing that impact.

This policy applies to all sites, personnel and operations. Information is provided to all employees via notice boards, memos and VMS.

P & B Metal Components regularly reviews environmental legislation and other requirements relevant to our environmental aspects, activities, production and responsibilities, ensuring continual compliance.

P & B Metal Components exercise due care in preventing pollution from the waste produced, as a result of our company activities. We continually strive to develop plans to reduce waste and increase efficiency. And we are taking practical steps to prevent pollution and to reduce energy consumption and waste.

Guiding Principles

To ensure our environmental policy is relevant, progressive and regularly updated, we follow these guiding principles:

- We encourage the re-use of materials wherever feasible, when it does not compromise our products or service.
- Minimize waste and the impact of its disposal by applying the 'waste hierarchy': Reduce, Reuse, And Recycle.
- We aim to protect the environment & reduce our impact on the environment and implement environmentally responsible policies/products throughout our operations. We understand the importance of integrating good environmental practices into management and strategic planning.
- We will continuously seek to improve our environmental performance by understanding, setting, reviewing and controlling objectives and targets.
- We aim to ensure our compliance with environmental legislation.
- Strive to improve our environmental performance, reduce energy and water consumption and reduce waste.
- We select waste contractors who have been audited and hold the correct registration including waste carriers license and ensure they comply with all Health and Safety legislation.
- All chemicals and oils are stored securely on site, to prevent spills and leaks into the environment. With additional external and internal containment requirements. With precautions taken to prevent unauthorized use. And emergency plans in place in case of any spill.

P & B Metal Components Ltd will review this policy annually to reflect legal and regulatory developments and promote good practice.
